WORK EXPERIENCE

AMERICAN UNIVERSITY-KOGOD SCHOOL OF BUSINESS

WASHINGTON DC

Research Assistant

December 2023-Present

- Collaborate with the Senior Associate Dean on multiple research projects, delivering actionable, data-driven insights that strengthen decision making for University administration.
- Analyze course and student data to optimize resource allocation, achieving measurable improvements in faculty workload balance and scheduling efficiency
- Design and execute data collection workflows, supporting 95%+ successful replication of ongoing research projects.
- Clean and organize large datasets using R, Python, Tableau, and Excel, ensuring 100% accuracy in reporting and analytics for academic planning.
- Document research processes, track project challenges and record solution, resulting in enhanced clarity, continuity and knowledge transfer for future research teams.
- Conduct in-depth statistical analysis and develop visualizations, enabling academic departments to make informed planning decisions and improvements.
- Pilot AI and machine learning models to automate research workflows, improving efficiency and accelerating insight generation for academic initiatives.
- Took a short break from May 10 to June 23, 2025, following graduation, before resuming the role.

NATIONAL ASSOCIATION OF COUNTIES

WASHINGTON DC

Research Intern

January 2025-September 2025

- Extracted, cleaned, and analyzed large county level datasets using R, Python and Excel pivot tables ensuring 100% data integrity and enabling counties to base policies on accurate findings.
- Completed three commissioned research request projects from county governments, tailoring data-driven reports that directly informed each county's policy decisions and resource plans.
- Updated and validated the organization's internal database with verified county-level data, improving information retrieval efficiency by 30% for internal and external stakeholders.

- Managed and manipulated large datasets in Microsoft Excel, leveraging advanced functions for data analysis and reporting
- Generated data visualizations, trend analyses, and written reports using Power BI and Excel pivot tables, supporting counties in addressing key policy issues.
- Coordinated multiple research requests simultaneously, delivering all projects on time while maintaining 100% accuracy in data analysis and reporting.

NCBA BANK PLC LTD, KENYA

Customer Product Advisor

NAIROBI, KENYA

May 2022 – August 2023

- Leveraged customer portfolio data and transaction trends to identify and prioritize leads for education policy products, driving a 30% increase in lead conversion and efficiency and campaign targeting accuracy.
- Conducted exploratory analysis of product uptake, demographics, and customer feedback using SQL and Excel, generating actionable product enhancement recommendations for senior management.
- Generated weekly performance reports tracking KPIs such as policy uptake rates and conversion funnel metrics, enabling strategic adjustments that improved client engagement by 25%.
- Mined internal databases to segment clients by life stage, income profile, and saving behaviors, enabling more data-informed personalized selling and education strategies.
- Collaborated with cross-functional teams to align sales strategy with customer insights, supporting the design and execution of acquisition campaigns that delivered measurable increases in policy subscriptions.
- Maintained real-time records of customer interactions, sales pipelines, and feedback data within the CRM system, enhancing data quality for forecasting and performance tracking.
- Implemented structured follow-up workflows that reduced policy lapse rates and ensured 100% premium collection within 90-day cycles, strengthening revenue predictability.

PUBLIC SERVICE COMMISSION

Economist Intern

NAIROBI, KENYA

January 2020 – March 2021

- Collected and validated loan application data for youth and women empowerment programs, ensuring 100% accuracy and improving loan approval timelines.
 - Maintained detailed loan records and compiled monthly aging analyses that improved repayment performance by 20%.
 - Conducted field visits to funded youth and women groups, gathering data to evaluate progress, measure life improvements, and assess economic empowerment outcomes.
 - Performed data-driven evaluations of funded projects, providing actionable insights and recommendations that guided program adjustments and resource allocation.
 - Analyzed repayment trends and coordinated structured follow-ups for non-performing accounts, increasing loan recovery rates by 40% across targeted groups.
 - Prepared monthly summary reports and presented findings to fund oversight leadership, supporting informed budget and policy decisions.
 - Responded to stakeholder inquiries with data-backed updates, enhancing transparency and building confidence in youth economic empowerment initiatives.
 - Recorded participant engagement during entrepreneurship and life skills trainings, quantifying program reach and long-term impact.
-
